Internal Rate of Return (IRR)

Huntington Glen is generating an after-tax Internal Rate of Return of 14.0%. The IRR represents the after-tax annual yield of the investment if the project was disposed of on January 1, 2013. The calculation uses the initial investment, the series of year-to-year after-tax cash flows, and the after-tax proceeds from the sale of the property to establish a return on investment. Taxes are calculated at 43.7%, using the top combined marginal tax rates.

Huntington Glen is generating a grossed-up Internal Rate of Return of 24.8%. This represents the annual return an investor in the 43.7% tax bracket would have had to earn from an interest-bearing security, before taxes, in order to match the performance of this investment.
